Vitamin K Epoxide Reductase Complex–Protein Disulphide Isomerase Assemblies in the Thiol–Disulphide Exchange Reactions: Portrayal of Precursor-to-Successor Complexes

Maxim Stolyarchuk, Marina Botnari, Luba Tchertanov

International Journal of Molecular Sciences, 2024, Special Issue Protein Folding 2.0, 25 (8), pp.4135. ([10.3390/ijms25084135](https://doi.org/10.3390/ijms25084135))

Synergy of Mutation-Induced Effects in Human Vitamin K Epoxide Reductase: Perspectives and Challenges for Allo-Network Modulator Design

Marina Botnari, Luba Tchertanov

International Journal of Molecular Sciences, 2024, Special Issue Molecular Dynamics Simulations and Structural Analysis of Protein Domains, 25 (4), pp.2043. ([10.3390/ijms25042043](https://doi.org/10.3390/ijms25042043))
